

EmagiKit™ MODULAR RETAIL SOLUTIONS

Re-inventing retail space.

The challenges in the retail space today are daunting. Ever higher customer expectations. Increasingly fast redesign trend cycles. Hyper customized branded experiences. Quickening time to market. Smaller, nimbler, pop up formats. Tighter cost pressures. Shorter leases and higher vacancy. And much more.

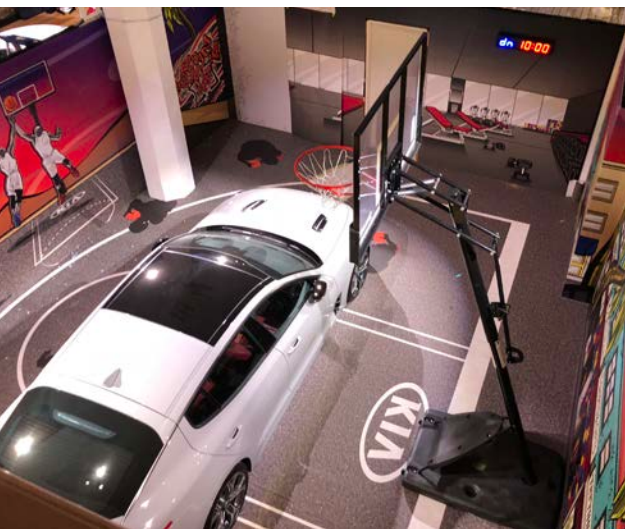

Can your retail space keep pace? With Emagispace® as your partner, the answer is yes! Our next generation modular display and shop solutions help you move at the speed of retail. Our exclusive, interlocking block building system equips you with the fastest, most responsive retail design, build and format management approaches. This easily scalable solution accommodates projects large and small - from an in-store display to a multi-store rollout. Whether you are looking to engage with customers to drive traffic and sales or seeking to quickly fill vacant space with attractive designs, we have what you need to keep up – and win – in the game.

EmagiKit™ MODULAR RETAIL SOLUTIONS

Powered by patented EmagiBlocks® made of sustainable fiberboard panels and ABS interlocking blocks that connect to fit any space or scale

SEE HOW EMAGISPACE CAN HELP YOU CREATE AMAZING RETAIL DISPLAYS AND INTERIOR SPACES.

Our breakthrough approach delivers modular, kitted ease without sacrificing quality. EmagiKit Modular Retail solutions combine the convenience and adaptability of conventional modular assembly displays with the customization and durability of traditional store builds. It's the best of both worlds. We've helped clients catch the latest trends with our applications for modular co-working space and privacy rooms in stores and malls, data-driven retail concept testing, and high-tech trade show exhibits. And we bring you a track record of modular applications for more than 200 clients in retail and a broad range of other industries.

Our proven solutions offer:

**Easy, quick
snap-and-fasten assembly
with minimal tools**

**Infinite design options
and reconfigurations
to trends and layouts**

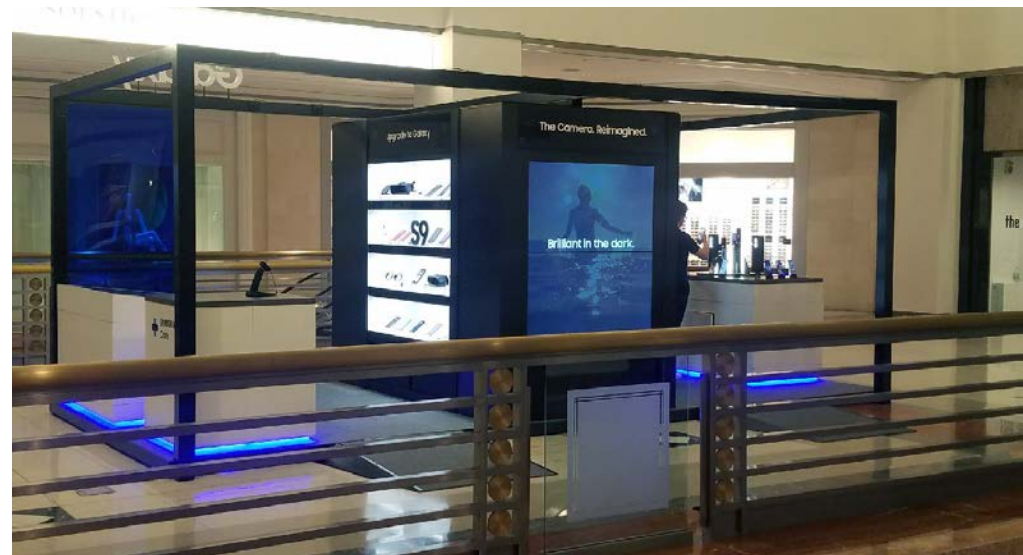

**Highly customizable
finishes to your brand
experience**

**Reusable, long life
cycle with low total
cost of ownership**

**Sustainable, eco-friendly
material with low mess
and waste**

Whatever your ambitions, we've got you covered with highly scalable applications and quality design options. And our kitted solutions flex and combine to create the right structures across all retail merchandising categories, shopping spaces, and exhibits and events. And with just a few people our interchangeable modular units enable you to create displays in hours – not days.

POP UP SHOPS
STORE-IN-STORE DISPLAYS
CO-WORKING SPACES
TRADE SHOW EXHIBITS

We deliver real time retail space and pop up shops.

See how quick and easy it can be to deliver responsive, adaptive retail experiences. It's now possible to refresh and redesign more often and more affordably with our exclusive EmagiBlock® construction system. Our blocks, made of sturdy fiberboard panels with lightweight ABS plastic interlocking connectors, power a simple, streamlined component building process.

EMAGIBLOCK EMPOWERED

SHIP

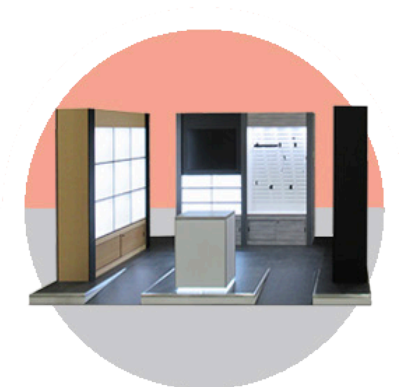

- Low lead times with less than 10 days from order to shipment for many products
- Delivered in compact palletized units, that are easy to receive and store

BUILD

- Turnkey construction with minimal tools easy enough for store personnel to assemble
- On call engineering and design experts for guidance
- An approved national network of installers for on-site support or build

REDESIGN

- Easy to reconfigure, update and move components as need or inspiration strikes
- Ability to add additional components to expand and modify original structure

The right stuff for your retail masterpieces.

One size never fits all in retail. You need maximum freedom of choice to turn your vision into reality. Our modular, kitted products offer quick, ready-to-order components and finishes, along with ultimate flexibility in configuration, custom branding and add on features.

The right configuration and components

- **Flexible, scalable kits and components that can be configured and combined into virtually endless variations, conforming to every twist and turn of your blueprint or planogram.**
- **Product design and engineering experts available to assist you with design plan technology and ideation to develop the right layout and components to your specifications.**
- **Open-source design compatible with add-on features or fixtures including walls, doors, video displays, merchandising racks, interactive and POS technology, plumbing and electrical.**

CUSTOM FINISHES

Consult with our design team for custom finishes.

The right partnership for your goals.

From concept through launch, Emagispace is able to step in at any point in the process. And we partner with all those along the way, tailoring our approach to work for stores, designers, architects, consultancies/agencies, property managers, program operators, and shopping malls. Our solutions help meet retailing and real estate management needs across the spectrum of your goals.

We help deliver retail experiences that:

- **Gain insight and engage with customers**
- **Test new concepts and products**
- **Drive awareness, traffic and sales**
- **Refresh and rebrand to trends**
- **Facilitate buzz and online-to-offline interaction**

We help meet real estate space management needs to:

- **Fill empty spaces and reduce vacancy rates**
- **Manage against shorter lease terms**
- **Quickly build out tenant space**
- **Develop to specific requirements, layouts and formats**
- **Rework and reconfigure efficiently and cost effectively**

It's the game-changing, disruptive building technology, like no other for retail innovators:
